

ART WORKSHOPS at SERENBE

Fine Arts Workshops at Serenbe (FAWS) provide exceptional educational workshops in the visual arts and writing for emerging and established artists and lifelong learning students. Year-round intensive three day and one week workshops are taught by teams of professionals from both the creative and business sides of the art world. This multifaceted approach, combined with small class sizes, provides participants with a personalized, immersive, hands-on experience. FAWS also feature a regular series of lectures, readings, and exhibitions by a diverse range of visiting artists. **THERE ARE MANY UPCOMING WORKSHOPS: www.fineartsworkshop.com**

“Plein Aire” Spring Painting Class: Landscape as Narrative Saturdays, 9 - 11:30 a.m., April 10 - May 22

Taught by Michael David and Thomas Swanston, this workshop gives “anyone, any level, most ages” a chance to experience the inspirational Serenbe countryside while learning the technique of plein aire painting.

Atelier Program (ongoing)

This professional level development tool is designed to provide artists working in the studio with a heightened intensity of ongoing critical support through portfolio review and guidance. Atelier is for those returning to the studio after a prolonged absence, the professional artist preparing for an upcoming exhibition, or those seeking the support and fellowship of other artists.

Serenbe Photography Center offers a wide range of photography workshops, plus a lab facility where photographers and artists come to print their work using traditional color or black & white, and digital processes -- this non-profit resource is unique to the southeast (and maybe the entire nation). Most workshops are 1 or 2 day intensive, hands-on experiences with some of the most talented working professional photographers in the nation. Workshops are designed for beginners to professionals. **THERE ARE MANY UPCOMING WORKSHOPS: www.serenbephotographycenter.com**

SPC Dinner & Dialogue (ongoing)

Photography experts share presentations, then join attendees for dinner at The Hil for continued conversation. Featured speakers this spring and summer include Julian Cox, William Boling, Michael David, Peter Essick, and Susan Todd-Raque.

Eye on the World Series (ongoing)

This series of workshops focuses on environmental, social or historical themes, giving photographers real world shooting environments. The SPC partners with other non-profits for these special experiences.

One of our favorite books is Richard Louv's "Last Child in the Woods," which brings together cutting edge studies that prove direct exposure to nature is essential for a child's healthy physical and emotional development. He calls it "saving our children from Nature Deficit Disorder." Give your child a good dose of nature with hands-on experiences on the Serenbe Farm, interaction and feedings with the animals, hayrides, hiking, tree climbing, canoeing and more. Some sessions will participate in a performance with the new Serenbe Playhouse. To reserve and plan your family vacation week, call the Inn at Serenbe, 770.463.2610.

Serenbe Stables Equestrian Camp

May 31 - June 4
June 14 - 18
July 12 - 16
July 19 - 23

Serenbe Stables offers beginner to intermediate summer camp for ages 5 - 12, giving kids a chance to ride, learn and explore each day. Sessions are limited to 8 students. Visit www.serenbestables.com for all details and reservations.

Serenbe Photography Center Camp

July 19 - 23

SPC's photography camp for kids helps budding shutterbugs gain an overall knowledge of the technique and art of photography through a general understanding of the camera, light, composition and other photographic principles. Students will learn to work in 35mm and 120mm color and black & white film formats with traditional darkroom printing, as well as digital photography and printing. At the end of the week, campers will display their first photography portfolio at a celebratory exhibition for family and friends.
